Good Moring,

Sites are put into a billing cycle once the cost hits SCORPIOS. If the charges on the site are under \$50,000 the site is billed every three months from the month it hits SCORPIOS. If a site is over \$50,000 It is billed every month. This site just hi the three month mark in SCORPIOS and the current charges are \$15k so it will be put into the sites that need to be billed this month and then that stack of sites are worked from highest to lowest amounts. Hope this helps to answer any questions or concerns. If you still have questions please feel free to reach out.

Subject: USCG FPN E18523 - Ozinga Tire Fire

Hello,
 USCG e-mailed (see below) Tom and I about the whereabouts of the EPA bill associated with the Ozinga Tire Fire. Is this bill being processed for our approval or does it go directly to USCG? Below is the work code and description if that helps.
 Thanks,
 Rob

 Subject: RE: FPN E18523 - Ozinga Tire Fire - Ceiling Increase

Good morning,

I was going through and updating notes on all my cases and noticed I have not seen any paid EPA oil bills associated with this FPN.

Can I get a status update?

Very Respectfully,
